Dear Colleagues

The Career Development Services (CDS) has many resources and opportunities available to College of Sciences students, from virtual interviews, to resume tips, paid internships and advice on applying to medical school. One of our goals related to student success has been to encourage our students to become familiar with CDS much earlier in their college career.

Each month the CDS sends out a newsletter to all COS students. I thought you would be interested in seeing the latest newsletter sent out to our students. That newsletter is attached to this email, and there is link to it on the COS Student Success page under "Career Services"
<https://www.odu.edu/sci/student-success#tab130=3>.

This latest issue includes the following information and/or companies:

Sentara

Parker Dewey

NASA National Develop Program

Virginia Space Grant Consortium Research Fellowships

Newport News Shipbuilding Paid Internships

Commonwealth STEM Industry Internship Program (paid internships)

Med School Coach

Most of our students aren't taking advantage of the services and information available at CDS. I would like to find a way to send our students to CDS much earlier, perhaps even in their freshmen year, so they can find out what is needed to apply for internships and other opportunities. I would appreciate anything you can do to encourage your students to visit the CDS website <https://www.odu.edu/cds> and learn about the information and resources there.

I hope everyone has a safe and relaxing Thanksgiving Break.

Thank you!

Gail

In the sciences we are no strangers to needing internships, research experience, or fellowship opportunities. Check below to see (just some) that are advertised.

Graduate STEM Research Fellowships 2021-2022

Fellowships

The Virginia Space Grant Consortium (VSGC) provides \$6,000 graduate research fellowships to students majoring in STEM disciplines (Science, Technology, Engineering and Math).

Fellowships require students to participate in a faculty-mentored research experience that aligns with NASA's mission.

Awardees are required to use \$1,000 from the Fellowship to support travel to related conferences and for research-related supplies and materials.

Awards are renewable for one year for students making satisfactory academic and research progress.

Eligibility

- U.S. citizen
- Graduation date no sooner than May, 2022
- Conducting research that supports NASA's mission
- Grade point average of at least 3.0
- Must be receiving matching funds of at least \$6,000 from applicant's academic institution

Enrolled as a full-time graduate student at one of the Virginia Space Grant Consortium member institutions:

The College of William and Mary
Hampton University
Old Dominion University
University of Virginia
Virginia Tech

About the VSGC

The Virginia Space Grant Consortium (VSGC) is a coalition of five Virginia colleges and universities, NASA, state educational agencies and other institutions representing diverse STEM education and research. VSGC offers a wide range of student opportunities including fellowships, scholarships, internships, research experiences, and student flight projects.

How to Apply

For more information, and to complete the online application for 2021-2022, please contact Joyce Kuberek at jkuberek@odu.edu or visit: <http://vsgc.odu.edu/sf/gradfellow>

DEADLINE: January 29, 2021

Virginia Space Grant Consortium • 600 Butler Farm Road, Suite 2253
Hampton, Virginia 23666 • vsgc.odu.edu • Phone: 757-766-5210

Undergraduate STEM Research Scholarship 2021-2022

Scholarships

The Virginia Space Grant Consortium (VSGC) provides undergraduate research scholarships of up to \$8,500 to students majoring in STEM disciplines (Science, Technology, Engineering and Math).

Scholarships require students to participate in a faculty-mentored research experience that aligns with NASA's mission.

Student scholarships and research support totaling \$4,000 during the academic year and \$4,500 during the summer semester are available.

Eligibility

- U.S. citizen
- Enrolled as full-time student (minimum of 12 credit hours) at one of the five VSGC member institutions
- Be a junior or senior during the 2021-2022 academic year
- In a program of study demonstrating an interest in STEM which supports NASA's mission
- Grade point average of at least 3.0
- Graduating May 2022 or later

About the VSGC

The Virginia Space Grant Consortium (VSGC) is a coalition of five Virginia colleges and universities, NASA, state educational agencies and other institutions representing diverse STEM education and research. VSGC offers a wide range of student opportunities including fellowships, scholarships, internships research experiences, and student flight projects.

How to Apply

For more information, and to complete the online application for 2021-2022, please contact Joyce Kuberek at jkuberek@odu.edu or visit: <http://vsgc.edu/edu/fundergrad>

Students applying for the undergraduate STEM Research Fellowship must be attending one of these universities:

- The College of William and Mary
- Hampton University
- Old Dominion University
- University of Virginia
- Virginia Tech

DEADLINE: **January 29, 2021**

Virginia Space Grant Consortium • 688 Butler Farm Road, Suite 2253
Hampton, Virginia 23666 • vsgc.edu • Phone: 757.766.5210

We offer competitive pay, employee discounts, housing options, savings plan options, professional development opportunities, social activities & more!

EEO | Veterans/Disabled Welcome | U.S. Citizenship Required

PAID INTERNSHIPS
in Science, Technology, Engineering and Math (STEM)

- U.S. citizen or permanent resident
- 18 years old
- 2.7 GPA or higher
- STEM major
- At least 6 credit hours per semester
- New graduates are eligible to apply

The Virginia Space Grant Consortium (VSGC) and its partners, in collaboration with Virginia's universities, colleges and community colleges offer the Commonwealth Stem Industry Internship Program (CSIIIP). The program links undergraduate Science, Technology, Engineering, and Math (STEM) students to industry and employers to students.

One application puts a student in front of companies offering paid internships throughout Virginia.

There is no cost to students/colleges/universities or companies to participate.

New CSIIIP internship opportunities for three high needs technical certification areas. See website for additional information.
