Welcome to Old Dominion University!

Our goal is to keep you connected with the information you need to support your student’s success. Our office wants to offer you perspective about the key issues your student may face during the academic year and to make you aware of the resources available.

Join us in helping your student succeed! Contact Student Transition and Family Programs when you have questions, when you have a concern or a suggestion, or when you want to share a story of success.

Housing & Residence Life staff members plan well in advance to help make move-in day an enjoyable experience. Here are a few tips to help ensure your arrival to campus is smooth.

**Arrive at your designated time**
Many families want to arrive early on move-in day. If you arrive at your scheduled time, staff and volunteers are able to help you and plan for your arrival accordingly.

**Bring a 2-wheel dolly**
Some dollies are available on move-in day, but they tend to get checked out quickly. Bringing your own allows for a quicker move-in.

**Pack items in bins, bags or boxes**
Pack items in bins, bags, or boxes; loose or non-packed items can take several more trips to unload than well-packed boxes.

**Follow the traffic and parking maps**
Campus becomes a well-designed maze at move-in. Once your student receives a key you will be provided directions to the residence and parking areas. Don’t stray from the map or you could accidentally be waiting in a line for another area on campus!

**Pack light**
Students do not need a lot of items for college; limit personal belongings and decorations. Many sport items can be rented at the Student Recreation Center and most students will return home at some point to get more items or seasonal items as needed.

**Save your receipts**
Many students tend to overshop for moving to college. Saving your receipts will come in handy if items don’t fit or are not needed after move-in.

**Check the Housing & Residence Life website** for holiday closings and move-out dates.

**Student Conduct & Academic Integrity**

757.683.3431  
2122 Webb Center  
odu.edu/oscai

Sometimes parents wonder “If my student gets in trouble, will someone tell me?” The short answer: probably not. Students generally control when information in their University records—including student conduct records—may be released to a third party, including parents (even though you may pay the tuition!).

The only circumstances in which a staff member in Student Conduct & Academic Integrity will be able to speak about students’ cases are after they sign a Release of Information that gives our staff permission to discuss a specific case with you (Note: there is no “blanket” release you can sign in advance that will give you access to records that don’t yet exist!). We may also send a letter to the permanent address on file after a student is found in violation of the University’s alcohol or other drug policies and the student is under 21 years of age at the time of the disclosure, though this notification often comes weeks after the original incident.

While most students do not interact with our office, you may find comfort in knowing those who do consistently report feeling heard, being treated fairly, and learning from their involvement in the student conduct process.

If you would like more information about our process, or would like to review the resources we have designed for parents, please visit our website.
Office of Student Activities and Leadership (OSAL)
757.683.3446
1071 Webb Center
odu.edu/osal/

OSAL provides experiences, services and opportunities that promote the advancement of social and intellectual development. By encouraging student involvement, OSAL promotes lifelong learning, responsible citizenship, and a commitment to the Monarch and surrounding communities.

OSAL oversees leadership programs, student organizations, service and civic engagement, pride and traditions, activities and events, fraternity and sorority life, and the Webb Information Desk. What does this mean for students? It means we’re here to help them make the most of their college experience.

Old Dominion University students who need answers now have a place to go—the Student Success Center. Whether the question involves academic planning, study skills, or just wanting to talk with another student, the Student Success Center is open from 8 a.m. until 6 p.m. weekdays to help. The center hosts events with partners across campus such as a Student Services Fair in the fall semester and a Major Exploration Fair in the spring. There are also workshops on how to study for a test, how to take the best notes in class, and tricks to answering multi-choice questions on an exam. The Student Success Center is the one-stop-shop for ODU students to get the support they need to meet their academic goals. Free tutoring in a wide variety of subjects and peer mentoring are other services available in the building.

The center’s staff provides outreach services including teaching zero credit courses each week for specific first-year students who are having difficulty with the transition from high school to college. These courses focus on teaching students how to identify their strengths as learners and help them use these strengths to be better students. Students are also taught how to create academic plans in the University’s student information system through DegreeWorks software. Programs specifically geared to transfer students and sophomores who need to connect with knowledgeable advisors and peer educators are also offered.

Early Alert Grades
Each fall and spring semesters, students enrolled in 100- and 200-level courses receive progress grades. Student Success Center advisors, in partnership with academic advisors and residence hall directors, contact students whose grades are below a C in order to connect them with all the resources the Student Success Center has to offer. Students who are doing well in their courses are also encouraged to visit the center. Opportunities for undergraduate research, participation in one of the many academic honor societies, and enrolling in the University’s Honors College are available in the Student Success Center too.

Withdraw/Financial Aid
Students who are contemplating withdrawing from a course or courses should consult with their academic advisor. This is even more important for students receiving financial aid. The deadline to withdraw from a course(s) is usually the 10th week of the semester and students may do so online through their Leo Online account. However, there are stipulations on such actions where financial aid is concerned. Students who withdraw or do not pass at least 75% of their attempted courses may lose their aid. So, it is extremely important for students to take advantage of the Student Success Center’s services if they are receiving financial aid of any kind.

These are just some of the services offered by this new jewel in the ODU Monarch’s crown. To find out more or receive regular announcements about upcoming events, “like” us on Facebook (facebook.com/ODUStudentSuccessCenter) or find us on the Web.
Center for Major Exploration (CME)
757. 683. 4805
1500 Webb Center
odu.edu/ao/cme/

The Center for Major Exploration (CME) provides academic and career advising to exploratory students. We want your student to succeed and offer the following tips:

- Students need to recognize that being “undecided” is usually a great decision! Research shows that three out of four students change their majors at least one time.

- Students should make good use of CME. They are supposed to meet with us at least three times in the first semester. Setting and keeping appointments with our office allows us to be most effective with assisting them in navigating the exciting, but often challenging, first year. Advisors will help them explore their interests, values and skills and familiarize them with various majors.

- Students should make attending all classes a top priority. Skipping classes is like throwing money away. Regular attendance is one of the best predictors of academic success.

- Students are encouraged to get involved with campus activities. Feeling like a part of the community enables students to feel engaged and like they belong here. That’s a good thing!

- Students are urged to seek assistance if they are feeling overwhelmed, confused or unhappy. CME is a great source of advice and support on academic issues and we can refer students to additional resources for all types of concerns.

- Students should get to know their professors and meet with them if they are having problems in class.

- Students should consider taking the Career and Major Exploration Planning Class (UNIV 120) for one credit.

- Parents can help students identify their strengths and interests as relates to choice of major and career.

Fall Holiday (no classes Saturday-Tuesday)
Encourage Your Student to be Healthy & Productive! 10 Health Tips for Student Success

1. Grab breakfast. Whether they are rolling out of bed at noon or up at the crack of dawn for class, a healthy breakfast will give them energy and help students concentrate on schoolwork and not their growling stomach.

2. Eat healthy. Your student should try to incorporate at least a few fruits and vegetables into their diet each day and limit junk food. Sugary foods may taste yummy, but can leave students feeling sluggish.

3. Work in walking. Walking is a great form of transportation on campus. There’s no better way to work exercise into a busy schedule than walking at a brisk pace around campus.

4. Relieve stress through exercise. Encourage your student to spend some time at the Student Recreation Center; it’s free for ODU students. Regular exercise can help with stress reduction.

5. Get a flu shot. Getting the flu in college could really set your student back. Students can avoid the fever, aches, fatigue, and cough associated with the flu by getting a flu shot. Student Health Services offers flu shots at low cost to ODU students.

6. Be prepared for and try to prevent minor illness and injuries. Having a thermometer, Tylenol, a decongestant, and cough syrup will help if your student gets a cold. An antibiotic ointment (like bacitracin) and Band-Aids will be helpful for minor cuts. It’s also important to remind your student to wash his/her hands—studies have shown that simple hand-washing can help prevent a large number of illnesses.

7. Alcohol and GPA do not mix. Studies have shown that as alcohol consumption increases, GPA decreases. Your student should not risk academic success by consuming alcohol irresponsibly.

8. Get enough sleep. Without sleep, students cannot concentrate well enough to get the most out of their classes.

9. Get tested. Sexually transmitted infections are common on college campuses and if your student is sexually active, he/she should get tested. Condoms are sold at the Student Health Center for a small fee and students can pick up three condoms for free! STI testing is also available at Student Health Services.

10. Student Health Services is here for your student.
### Absence Notification
- If your son or daughter misses class for at least one consecutive week of classes due to physical or mental illness, physical or mental illness of an immediate family member, or death of an immediate family member, he or she should fill out the Request for Extended Class Absence Notification form which can be found online [odu.edu/sos/Absencenotice.pdf](http://odu.edu/sos/Absencenotice.pdf) or in 2008 Webb Center.
- The request for extended class absence notification does not excuse your son or daughter for the absence. The notification simply documents the occurrence of his or her illness or extenuating circumstances. It is the instructor’s decision to excuse the absence and to allow the student to make up missed assignments or exams.

### Administrative Withdrawals
- During the course of the semester, if your son or daughter experiences an extenuating personal situation, such as severe illness or death in the immediate family, there is an option to request administrative withdrawal from the University.
- In order to make the request, your son or daughter must complete the Request for Administrative Withdrawal form, which can be found online at [odu.edu/sos/AdministrativeWithdrawal.pdf](http://odu.edu/sos/AdministrativeWithdrawal.pdf) or in 2008 Webb Center. Supporting documentation also must be submitted, such as a doctor’s note/letter, military order or accident report.

### Mediation
- Mediation is available if your son or daughter would like help in resolving a dispute, conflict or issue.
- This process is conducted by a trained mediator who will facilitate communication between your student and the party he or she is in conflict with.
- If your son or daughter would like to utilize mediation, please have them contact Student Ombudsperson Services.

Wow... you have to see it to believe it! The Student Recreation Center has all that you can imagine and so much more. The Center is furnished with state-of-the-art fitness equipment as well as an incredible rock wall and an Outdoor Adventure Center! The Center is another point of pride for this University.

The Student Recreation Center is a true gathering place, a destination for the ODU community. It is a place where students can connect, where they can express themselves and a place where they want to be. It is where the words “I can’t” do not exist, but rather the words “I can”... run, kayak, get healthy, climb, learn, create, be who I am—those are the words that matter and the words that change lives. The Recreation Center was built for our students and we want it to be all about our students!

We have been told time and time again that the Student Recreation Center is the heart of our University. No matter who you are or where you come from, there is something for each student and we want our community to understand that we are more than just sports.

We encourage you to take a tour of our beautiful facility filled with excitement and activity. You will see that we have plenty of activities such as intramural sports, outdoor adventure, wellness, aquatics, fitness, club sports and so much more!
The Old Dominion Police Department is open 24 hours a day, 7 days a week throughout the year to serve ODU students. All ODU police officers are state-certified law enforcement officers with training from the Hampton Roads Criminal Justice Training Academy. The ODU Police Department shares concurrent jurisdiction with the Norfolk Police Department, that extends from south of Magnolia Avenue to 38th Street and west from Colley Avenue to the Elizabeth River.

Safety is a top priority at ODU! The police, in partnership with Parking and Transportation Services, provide SAFE RIDE and escort programs. Students are able to contact the Police Department between the hours of 5:30 p.m. and 2:30 a.m. daily for transportation or an escort from an academic building to their residence hall or car. Students can contact them at 757.683.3477 or use the blue light emergency phones located around the campus. There is no cost associated with the program. ODU police officers are able to escort students after SAFE RIDE hours.

Before classes begin, please share these tips with your students:

- Walk on well-lit paths and streets and walk with others, especially at night.
- Familiarize yourself with the locations of emergency phones and call boxes in the buildings and around the campus routes you normally visit and walk. All campus buildings have red telephones that link directly to campus police.
- Keep all doors locked, including the doors to your residence hall room, off-campus housing, and car.
- Do not prop open any doors to the residence halls.
- Do not invite strangers into your residence hall room or off-campus house.
- Identify visitors before opening your doors.
- Utilize the Monarch Loop (ODU’s shuttle system).
- Do not leave your bicycle, laptop, iPod or other valuables unsecured and do not leave valuables in view in your vehicle. The ODU police offer registration and engraving of personal property in the Powhatan Satellite Office. The satellite office is located within the Powhatan Apartments off Powhatan Avenue.
- Report all suspicious activity and situations to campus police. If you are a victim of crime, report it to police immediately by calling 757.683.4000.
Your student, along with 2 million others, is about to enter an exciting time. College is a period of joy, pain, discovery, and disappointment. You are entering this period with your son or daughter. You’ll experience happiness and defeats along with them—second hand, but just as vividly or achingly. The tips we offer are purposely subjective. They were written by a recent graduate, based mostly on careful observations of mistakes and/or breakthroughs made by her parents and the parents of her friends.

Rule #1: Don’t ask them if they’re homesick, but be aware of signs of distress.

Rule #2: Call/text them even if they don’t respond.

Rule #3: Ask questions, but not too many. Listen first.

Rule #4: Expect change, but not too much.

Rule #5: Don’t worry too much about frantic phone calls or texts.

Rule #6: Visit, but not too often.

Rule #7: Do not tell your students that these are the best years of their lives.

Rule #8: Trust them. They will survive. Most students adjust well and blossom in college.

Rule #9: Give them study time.

Rule #10: Try to follow the first nine rules.
Financial aid can be a complex process. We offer these tips for easier navigation:

- File taxes as early as possible, however, if you have not filed your tax return by February 15, estimate tax information on the FAFSA and retrieve data later once taxes have been completed.
- Request a personal identification number (PIN) at www.pin.ed.gov. Parents of dependent students will also need a PIN.
- Apply online by going to www.fafsa.ed.gov. Free help is available at 1.800.433.3243.
- A FAFSA submitted by the priority deadline of February 15 has a better chance to receive limited state grant funds.
- Use FAFSA-IRS data retrieval to transfer tax information directly to the FAFSA.
- Parents and students should put their email on the FAFSA.
- You will receive your Student Aid Report (SAR) by email. Please review the SAR for comments or additional information required by the Department of Education.
- If you do not receive your SAR in two weeks of submitting your FAFSA, check your application status at www.fafsa.ed.gov or call 1.800.433.3243.
- ODU Student Financial Aid may request additional information, so be sure to respond by the June 1 deadline to ensure your financial aid will be posted by the tuition deadline.
- Check the ODU email account frequently.
- Keep an eye out for your tentative award offer notification via email and accept your award offer electronically using Leo Online.
- Check for student requirements needed under Financial Aid when you login to Leo Online.

**Fifth-week grades posted for 100- and 200-level classes**
“How does ODU prepare students for global participation and leadership?” “Where can students learn the necessary skills to succeed in a diverse domestic and global workplace?” The answers to these important questions have tremendous impact upon the success and engagement of our students. The Office of Intercultural Relations (OIR) creates learning opportunities that not only develop cross-cultural competencies but also raises the awareness and appreciation of all aspects of cultural identities. Our large-scale cultural celebrations, cultural learning labs and seminars, activities with an international focus, and intentional multicultural exchange connections all promote a vibrant university community that values and respects each of our members.

The Intercultural Center (IC) provides a comfortable and fully mediated oasis for students to connect with others, participate in exciting out-of-classroom experiences, or just retreat from the occasional hectic demands of student life.

**ODU is in the Top 100 graduate Schools of Education by U.S. News & World Report**

The Women’s Center promotes gender equity through advocacy, education, and awareness activities designed to help students succeed at Old Dominion University. Education on women’s history and accomplishments, pay equity, and healthy body image are some areas of focus. Our Women’s Institute for Leadership Development (W.I.L.D.) teaches the skills needed to become an effective leader.

Navigating a new campus environment can often be tricky. There are lots of new people to meet and new things to experience. Encourage your student to attend our S.A.F.E. programs to become aware of red flags for unhealthy relationships, stalking and sexual assault, and to get involved in the We Speak Up task force. Remind them to be aware when walking around campus, to use the buddy system when going out, and to trust their instincts. Also, the Women’s Center provides advocacy and support for students who experience any form of gender violence or harassment.

There are many opportunities for your student to get involved with the Women’s Center, including our volunteer program and M-POWER Peer Education Network.
### Peer Educator Program

**Contact Information**

757.683.6396  
1104 Student Success Center  
http://ww2.uc.odu.edu/taa/

**Tutoring makes a difference!**

The Peer Educator Program offers both tutoring and mentoring services. Students work together with their mentor or tutor in support of their path towards academic excellence. The mentor or tutor encourages students to work through personal and academic challenges, to improve study and social skills, and to set realistic and tangible goals. The program offers support as the students continuously challenge themselves, and looks for ways to build relationships with faculty. The Peer Educator Program uses peer educators with considerable knowledge of ODU’s requirements, faculty, staff, and other services provided to assist students. In addition, they are familiar with the challenges students face; and meet with students throughout the semester to provide continual support for their academic success. This program is great for the student who needs help but does not know where to go. The Peer Educator Program helps students connect with the resources they need to be successful, as well as offering one-on-one and group tutoring.

**Tutoring makes a difference!**

The Peer Educator Program offers both tutoring and mentoring services. Students work together with their mentor or tutor in support of their path towards academic excellence. The mentor or tutor encourages students to work through personal and academic challenges, to improve study and social skills, and to set realistic and tangible goals. The program offers support as the students continuously challenge themselves, and looks for ways to build relationships with faculty. The Peer Educator Program uses peer educators with considerable knowledge of ODU’s requirements, faculty, staff, and other services provided to assist students. In addition, they are familiar with the challenges students face; and meet with students throughout the semester to provide continual support for their academic success. This program is great for the student who needs help but does not know where to go. The Peer Educator Program helps students connect with the resources they need to be successful, as well as offering one-on-one and group tutoring.
Q. What is Federal Work-Study?
A. Federal Work-Study is money allotted to students in their financial aid package, giving students the opportunity to work on or off campus. This money does not count toward tuition.

Q. How do students utilize their Federal Work-Study award?
A. There are several different ways to earn Federal Work-Study awards. At the Career Management Center we offer three different federal work study programs:

1. **Student Temporary Assist Team (STAT)**. Students can work for a few hours, days, or weeks (up to 30 days) for on-campus departments’ projects or special events such as job fairs and open houses.

2. **America Reads**. Tutor elementary/middle school students in reading.

3. **Community Service Internship (CSI)**. Work in area nonprofit organizations.

Q. What do I do if my student doesn’t receive financial aid and/or does not get a Federal Work-Study award? What resources are available for on- and off-campus positions?
A. Students can find on-campus student hourly positions and off-campus part-time positions on the Career Management Center’s CareerLink website. On-campus departments as well as outside companies can post job opportunities for ODU students. Please go to odu.edu/cmc and click on Find A Job or the ODU CareerLink logo.
What do I do if my student has a disability?
Provide the Office of Educational Accessibility (OEA) with a copy of current documentation which meets the guidelines for the student’s specific disability. Documentation guidelines can be found on our website for disabilities such as ADD/ADHD, medical disability, psychological disability, specific learning disability, and temporary mobility impairments. College students are not covered by their IEP or 504 Plan, as they were in K-12. Once OEA verifies and assesses documentation received, an intake meeting to establish accommodations to be used at ODU will be scheduled between the student and one of our counselors.

What do I do if my student is struggling and I suspect a disability?
The Office of Educational Accessibility cannot evaluate or diagnose disability. OEA can offer a referral list of doctors in the Hampton Roads area who can assess and diagnose the student. Additionally, OEA may screen for certain types of disabilities to help determine whether further professional assessment is needed.

What do I do if my student is registered with OEA but continues to struggle?
Encourage your student to visit our office. Our staff is here to support and offer an array of services and programs to assist students in fulfilling their collegiate goals and to find success at ODU and in future endeavors. Students should call or stop in to schedule an appointment to meet with a counselor.

What do I do if my student has a temporary injury which impacts their education?
OEA offers temporary accommodations to students who have been injured in a way which hinders them from getting to and preparing for class. We offer a golf cart program which can transport students from class to class on campus if they have sustained an injury which makes it difficult for them to travel on foot. We also can arrange note-sharing assistance and extended time on assignments for students who have limited use of their arms/hands.
The goal of the University Chaplains Association is to foster spiritual life in the ODU community, and to promote interfaith understanding and cooperation. If your student is searching for a faith community in which to participate, or if they have questions about their faith, they can contact Rev. Linda Rainey and she will be happy to help them find a place where they feel comfortable. We are also here to help parents if there are concerns regarding students on campus with specific needs and to direct parents and students to specific faith traditions as requested. Rev. Linda Rainey can be reached at 757.619.3455 for concerns or questions.

The University Chaplains Association sponsors a welcome event during the Week of Welcome, the annual President’s Prayer Breakfast in October, and a Religious Awareness Week during February. As students enter college they often seek new ways of expressing their faith and seek new faith experiences. Be patient with your students as they enter Old Dominion University. Their attendance at religious services can sometimes fall, and sleeping in on Sundays becomes more attractive when there is no one to get them up. But if they have been raised in a faith tradition, they will almost always find their way back.
## Campus Resources

All numbers use 757- prefix.

### Address Change
Office of the University Registrar, register@odu.edu
1st Floor Lobby, Rollins Hall, 683.4425

### Admissions, Re-Admission
Undergraduate, permanent resident, non-degree
Office of Admissions, admit@odu.edu
108 Rollins Hall, 683.3685
Non-U.S. Citizen
Office of International Admissions, intladm@odu.edu, 2101 Dragas Hall, 683.3701

### Advising
Freshmen & transfer students-undecided about a major
Center for Major Exploration (CME), undecided about a major
Chief Departmental Advisor

### Certification/Verification Of Attendance
National Student Clearinghouse, www.nsc.org
Office of the University Registrar, register@odu.edu
1st Floor Lobby, Rollins Hall, 683.4425
