Adding TurningPoint to Courses in Canvas

TurningPoint Technologies student response system combines interaction and assessment to enhance the classroom experience. Using RF transmitters (also called clickers), students can answer questions with a simple click of a button. Results are instantly charted and displayed for real-time student feedback and lesson refinement, allowing you to make the most of your class time.

Connect your courses from Canvas

- 1. Log in to Canvas, and navigate to your course.
- 2. Select **Settings** on the menu on the left side, then **Navigation**.
