Government in the US has grown from a small, simple “night watchman state” providing defense, police protection, tax collection and some education into an immense network of organizations and institutions affecting the daily lives of all citizens in countless ways.

As such, this course will:
1) Examine how the role of government has changed over time
2) The “life cycle” of a policy
3) The various factors influencing policy development
4) Some of the most controversial and infamous policies adopted in the US
