Dear Colleagues

The Career Development Services (CDS) has many resources and opportunities available to College of Sciences students, from virtual interviews, to resume tips, paid internships and advice on applying to medical school. One of our goals related to student success has been to encourage our students to become familiar with CDS much earlier in their college career.

Each month the CDS sends out a newsletter to all COS students. I thought you would be interested in seeing the latest newsletter sent out to our students. That newsletter is attached to this email, and there is a link to it on the COS Student Success page under “Career Services” https://www.odu.edu/sci/student-success#tab130=3.

This latest issue includes the following information and/or companies:
Sentara
Parker Dewey
NASA National Develop Program
Virginia Space Grant Consortium Research Fellowships
Newport News Shipbuilding Paid Internships
Commonwealth STEM Industry Internship Program (paid internships)
Med School Coach

Most of our students aren’t taking advantage of the services and information available at CDS. I would like to find a way to send our students to CDS much earlier, perhaps even in their freshmen year, so they can find out what is needed to apply for internships and other opportunities. I would appreciate anything you can do to encourage your students to visit the CDS website https://www.odu.edu/cds and learn about the information and resources there.

I hope everyone has a safe and relaxing Thanksgiving Break.

Thank you!
Gail

Undergraduate STEM Research Scholarship 2021-2022

Scholarships
The Virginia Space Grant Consortium (VSGC) provides undergraduate research scholarships of up to $10,625 to students majoring in STEM disciplines: Science, Technology, Engineering and Math.

Eligibility
- U.S. citizen
- Must be a full-time student with a cumulative GPA of 3.0 or higher
- Must be enrolled in a STEM major during the spring 2021 academic year
- Must be a new graduate doing research that supports NASA’s mission
- Must be a Virginia resident at least 18 years old
- Must be a current student at a Virginia college or university

Eligible programs:
- NASA's Langley Research Center
- NASA's Glenn Research Center
- NASA's Johnson Space Center
- NASA's JPL

About the VSGC
The Virginia Space Grant Consortium (VSGC) is a lead agency funded by the National Aeronautics and Space Administration (NASA) to develop educational and outreach programs to support K-12 education and workforce development, and provide Virginia students with educational and career opportunities in NASA's mission. VSGC offers a wide range of student opportunities including fellowships, scholarships, internships, grants to educators, and student paid internships. How to Apply
For more information, to apply and to see the online application for 2021-2022, please contact Jeff Adam at jadam@virginiawes.org or the website at https://vsgc.nasa.gov/apply/
