ODU School of Cybersecurity

9am-4:30pm

The School of Cybersecurity at Old Dominion University will host two GenCyber Camps for students entering 9th -12th grades in Hampton Roads! **Junior ROTC students are especially encouraged to apply.** Students without prior knowledge or experience in Cybersecurity are welcome to join us.

These **FREE** camps emphasize fun, hands-on learning of cybersecurity topics and defense techniques that are relevant and applicable to everyday life. Through each of the 5-day camps, students will learn the importance of cyber defense and how to protect their personal devices and information from outside threats. Besides week-long camp program, students will also participate in plenty of fun and engaging pre- and post-camps outreach activities.
