

MIDAS: Create an Account (International)

1. Go to <https://midas.odu.edu> and select **Need an account?**

The screenshot shows the MIDAS login page. At the top left is the Old Dominion University logo. To the right, it says "MIDAS" and "Monarch IDentification and Authorization System". Below the logo is a photograph of a bronze lion statue in front of a building with autumn foliage. A "Need Help?" link is in the bottom right corner of the photo. The main title "Login to MIDAS" is centered above two input fields: "MIDAS ID" and "Password". A blue "Login" button is below them. At the bottom, there are links for "Need an account?", "Forgot password?", "Forgot MIDAS ID?", and "Forgot UIN?".

2. Enter the required information, and click **Submit**.

The screenshot shows the MIDAS Account Creation page. It features the same header and background image as the login page. The title "MIDAS Account Creation" is at the top. Below it are four input fields: "University ID Number" (labeled "UIN"), "Last Name", "First Name", and "Date of Birth" (with a placeholder "Example: 12/31/1985"). There is also a "Gender" section with radio buttons for "Male" and "Female". A large green "Submit" button is highlighted with a yellow circle. A "Cancel" button is to its right. At the bottom, a link says "Already received an activation code?"

Note: Your University ID Number (UIN) is sent to you when you are admitted to Old Dominion University.

3. Read about the account requirements, then click **Next**.

Information about the MIDAS Account Update Process

Your Account needs to be updated. Depending on the status of your account, you may be required to do one or all of the following:

1. Accept the Acceptable Usage Policy (AUP) that states your responsibilities for access to ODU network.
2. Complete all necessary annual MIDAS Security Training (there will be one or more training courses, depending on your user role).
3. Create a new Security Profile that will be used if you forget your password.
4. Change your MIDAS password.
5. Set up two-factor authentication.

Click "Next" to proceed.

< Previous **Next >** Cancel Finish

Accept the AUP

4. Read the entire Acceptable Usage Policy. Click **Accept**, then click **Next**.

Account Requirements

Acceptable Usage Policy #1

ODU General Acceptable Usage Policy
ODU General Acceptable Usage Policy

Computer and network users are granted access to computing, networks, and information stored electronically contingent upon their prudent and responsible use. Access is granted to the individual and no individual can transfer or share access with another. Customers may not (1) use information or resources for any illegal or unauthorized purposes or act, i.e., to violate state or federal laws or any established policies and procedures of the University; (2) participate in any behavior that unreasonably interferes with the fair use of other customers or harms them in any way; (3) use resources or information for commercial purposes without prior authorization from the vice President for Administration and Finance. (Note that these acceptable usage policies are in addition to policies established by the Commonwealth of Virginia and do not supersede those Commonwealth policies.)

Misuse of computing, networking, and information resources may result in severe consequences, including the loss of access to computing resources. (Please be aware that this loss of access could adversely affect the fulfillment of your University obligations.)

By accepting, I acknowledge understanding of the information contained above and offer consent to the following: (1) in any investigation of suspect misuse by the account owner, the University may inspect, without prior notice (but with VP-A&Fauditor authorization), the contents of files, voice mail, logs, and related computer-generated or stored material, such as printouts; and (2) customer computer files may be inspected occasionally by systems personnel when assuring system integrity or performing related resource management duties.

*You MUST accept the AUP in order to continue.

Create Your Security Profile

6. The security profile allows you to reset your password if you forget it.

Choose at least one option from **Step 1**:

- **Emailed Token:** You can choose to have a single-use token emailed to any non-ODU email address.
- **User Defined PIN:** Set a 6-digit PIN if you do not have a non-ODU email address. You will have to remember this number.

7. Choose at least one option from **Step 2**, then click **Next**:

- **Question and Answer:** Select two of the predefined questions and answer them. Make sure you choose questions and answers that you will be able to remember long from now.
- **Color Grid:** Set a pattern of color squares that you can remember and replicate if you forget your password.
- **Friend Assistance:** Identify three people from ODU who can confirm your identity.

Step 2 of 2

Question and Answer

Canned Questions for Users to Answer

Select two questions to which you can give memorable answers.

If you forget your password, you will be presented with your selected questions in the same way you do here.

Color Grid

User Defined Color Grid Pattern

Create a pattern of colors you can remember and re-create.

Click on a color from the color palette, then click on any square inside the grid that you would like to fill with this color. You can overwrite colors as often as you wish or use the "Clear Pattern" button to start with a fresh grid. Note: You need to choose at least 2 different colors.

If you forget your password, you will be asked to re-create the color grid the same way.

Friend Assistance

MIDAS users that can assist you in your password recovery

Designate three friends who can vouch for you.

If you forget your password, your friends will receive emails asking to confirm your identity. Enter the MIDAS ID or ODU email addresses of 3 friends you trust.

Set Up Two-Factor Authentication

To access university resources, you'll need to log in with two-factor authentication. The first "factor" is your MIDAS ID and password. The next few steps are for setting up your second factor.

Most people use a mobile phone as their second factor, but if your smartphone does not have a U.S. phone number, you need to register the phone as a tablet (instructions below).

8. Select the type of device you have and click **Next**.

Account Requirements

Two-Factor Authentication

To access university resources, in addition to your password you are now required to authenticate with a second factor like a mobile phone or a token for an extra layer of security. We will guide you through the steps to add a device.

What type of device are you adding?

Mobile phone, tablet or security key (RECOMMENDED)

Duo D-100 or other token

< Previous | Next > | Cancel | Finish

9. Click **Start setup**.

Account Requirements

Two-Factor Authentication

Add a second layer of security to your login, in addition to your password

Protect Your Old Dominion - Dev Account

Two-factor authentication enhances the security of your account by using a secondary device to verify your identity. This prevents anyone but you from accessing your account, even if they know your password.

This process will help you set up your account with this added layer of security.

If you choose phone or tablet, please make sure to register the device that will be used while on campus. You will need this to log into systems, it cannot be someone else's device - not your parent's or friend's.

Start setup

< Previous | Next > | Cancel | Finish

10. Select **Tablet** and click **Continue**.

What type of device are you adding?

Mobile phone (RECOMMENDED)

Tablet (iPad, Nexus 7, etc.)

Security Key (YubiKey, Feitian, etc.)

Back | Continue

11. Select your OS (iOS or Android) and click **Continue**.

What type of tablet are you adding?

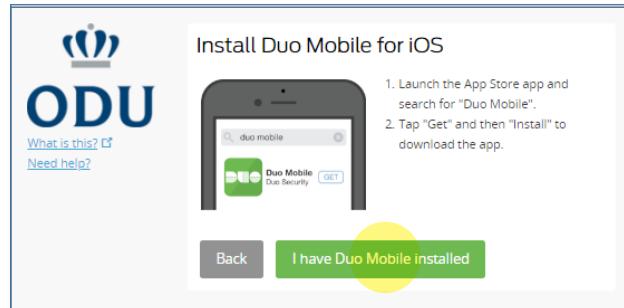

iOS (iPad, iPod Touch)

Android

Back | Continue

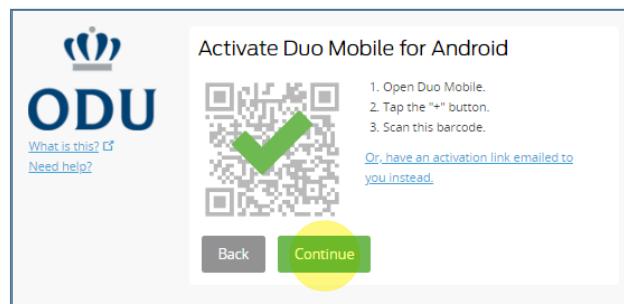

12. On your tablet (or smartphone registered as a tablet), install or open the Duo Mobile app, then click **I have Duo Mobile installed**. (See the [Duo Mobile App Installation Guide](#) for help.)

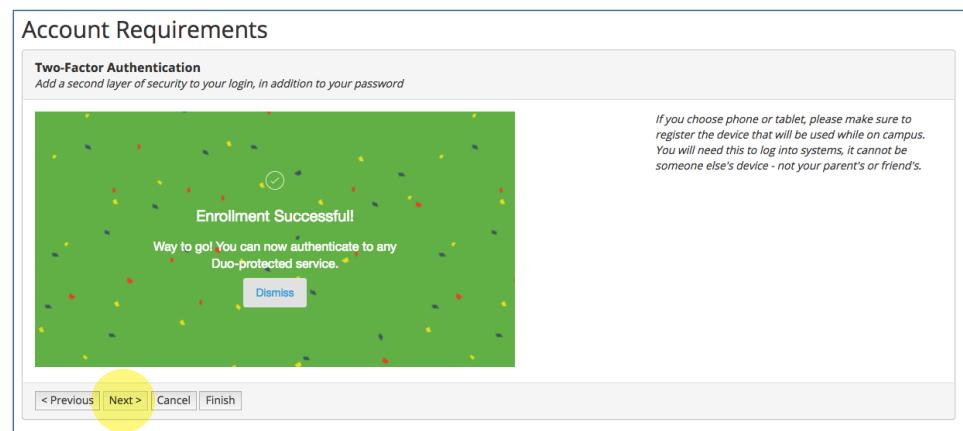

13. To activate the Duo Mobile app, **open the app and use it to scan the QR code** that appears on the two-factor enrollment screen.

14. Once scanned, your QR code will be verified. Click **Continue**.

15. Once you've successfully enrolled, click **Next**.

Set Your Password

16. The last step in your account setup is to set your MIDAS password. The password must follow certain rules, which are listed on the screen. When all of the check boxes have turned green, click **Next**.

Account Requirements

Set Password
ITS Standard Policy

Set your MIDAS Password

For verification purposes, you must enter the password twice. Because your MIDAS ID and password will be used to authenticate to several University services and systems, it is important that you create a strong password. Please refer to the rules on the right to ensure that you pick a strong password.

New Password:
.....

Repeat Password:
.....

Rules verified while you type the new password

- Minimum Digits: 1
- Minimum Uppercase Letters: 1
- Minimum Lowercase Letters: 1
- Length Range: 8-24
- Maximum Consecutive Same Character: 2
- Minimum Allowed Special Characters (! % + - : _): 1
- No Personal Information: 0

Rules verified when you repeat the password

- No Dictionary Words on Level: 1

Additional Rules verified on submitting the new password

Number of previous passwords that cannot be reused: 7
One password change per: 24 hour period
Character Difference To Last Password: 1
