Subject: Indirect Cost Allocation Report  
For the Six-Month Period Ended December 31, 2007

Attached you will find the Indirect Cost (IDC) Allocation report for the six-month period ended December 31, 2007. This report provides a combined reporting of the two University approved IDC allocation methods currently in use: the Traditional Method and the Non-Traditional Method.

The Traditional Method covers the research activity of regular faculty members working within the capacity of their academic or administrative appointments and projects which are conducted through the Virginia Applied Technology and Professional Development Center (VATPDC). The Non-Traditional Method encompasses the remainder of the sponsored program activity of the University. Projects reported under this model are those of Self-Supporting Research Positions (SSRP), University approved research centers and other affiliated entities for which the Research Foundation provides fiscal and administrative services.

The following are some of the key points in the allocations:

- The amount distributed for the Research Foundation's operations is based upon 50% of its approved operating budget for the fiscal year. This cost, net of fees and funding from affiliated activities, has been allocated proportionately to the University activity in both allocation models and represents 34% of University indirect cost recoveries for the current six-month allocation period and 33% of total indirect cost recoveries.
- The mandated return to the Commonwealth of Virginia of \$144,482 for the six-month period has been allocated proportionately to the University activity in both allocation models and represents 4% of the related indirect cost recoveries.
- Funding for the Intellectual Property operating budget has been provided at an amount of \$87,854, determined at .5% of total University cost recoveries, and has been allocated proportionately to both allocation models. This represents 2% of indirect cost recoveries.
- The distribution ratio in each allocation model is based upon the relative percentage of each department's or center's indirect cost recoveries to total indirect cost recoveries in the allocation base.

Should you have any questions concerning the enclosed report please do not hesitate to contact me at 683-4293 ext.602 or via e-mail at [jfacenda@odu.edu](mailto:jfacenda@odu.edu).
