Subject: Indirect Cost Allocation Report
For the Six-Month Period Ended December 31, 2012

Please Note: The Indirect Cost Allocation Reports are now available on the Research Foundation's web page at http://www.researchfoundation.odu.edu/reports/reports.htm.

Attached you will find the Indirect Cost (IDC) Allocation report for the six-month period ended December 31, 2012. This report provides a combined reporting of the two University-approved IDC allocation methods currently in use: the Traditional Method and the Non-Traditional Method.

The Traditional Method covers the research activity of regular faculty members working within the capacity of their academic or administrative appointments. The Non-Traditional Method encompasses the remainder of the sponsored program activity of the University. Projects reported under this model are those of Self-Supporting Research Professional Positions (SSRP), University approved research centers and other affiliated entities for which the Research Foundation provides fiscal and administrative services.

The following are some of the key points in the allocations:

- The Traditional Allocation distributes the recovered IDC (F&A) available for distribution as follows:
  - 20% to the Principal/Co-Principal Investigator's accounts;
  - 25% to the Department/School account;
  - 20% to the Dean's account
  - 35% to the Office of Research
- The Non-Traditional Allocation reflects the recently approved change in the SSRP policy so as to allocate the indirect costs recoveries to SSRP's in a manner consistent with research faculty under the Traditional Allocation.
- The indirect cost recoveries allocated to the Research Foundation for operations is one half the FY13 total approved budget.
- The overall effective IDC rate for the current six-month period of 12.75% is somewhat skewed due to a significant amount of subcontracted expenditures, not subject to indirect cost recovery, in the affiliated allocation. The effective IDC rate for the University activity in the Traditional and Non-traditional models excluding affiliates is 23.65% for the current period.
