Subject: Indirect Cost Allocation Report
For the Six-Month Period Ended December 31, 2018

The Indirect Cost Allocation Reports are available on the Research Foundation's web page at <http://www.researchfoundation.odu.edu/reports/reports.html>.

Attached you will find the Indirect Cost (IDC) Allocation report for the six-month period ended December 31, 2018. This report provides a combined reporting of the two University-approved IDC allocation methods currently in use: the Traditional Method and the Non-Traditional Method.

The Traditional Method covers the research activity of regular faculty members working within the capacity of their academic or administrative appointments and now includes Self-Supporting Research Professional Positions (SSRP). The IDC allocation policy for SSRP's was changed in FY 2013 to a manner consistent with academic faculty. The Non-Traditional Method encompasses projects of University approved research centers and the Virginia Space Grant Consortium, an affiliated organization.

At the direction of the University, there have been several changes to the IDC allocations for the last two reporting cycles. The Research Foundation operating budget is now currently funded at the full amount of the approved budget, net of fees received from affiliated entities. No longer are there funds allocation to the Research Foundation reserves. In previous allocations, 2% of Indirect Cost Recoveries had been allocated as reimbursement to the reserve accounts. The Office of Research has established a Research Investment Fund that receives 3% of Indirect Cost Recoveries. The University has increased the state mandated return from \$288,964 annually to \$631,800 annually. Below is a brief comparison of the 12/31/2018 allocation to 12/31/2017:

	12/31/2018		12/31/2017	
TOTAL RESEARCH FOUNDATION	1,903,690	43%	1,985,547	45%
TOTAL ODU DEDUCTIONS	532,304	12%	229,613	6%
TOTAL DISTRIBUTED TO UNITS	1,996,838	45%	2,156,691	49%
TOTAL INDIRECT COST RECOVERIES	4,432,832	100%	4,371,851	100%

The effective IDC rate for the University activity in the Traditional and Non-traditional models including affiliates is 22.80% for the current period. Funding for the Research Foundation operations is 43% of total indirect cost recoveries for the current six-month. In the Traditional and Non-Traditional Methods the amount allocated to the Academic Units represents 33.4% and the Office of Research 11.2% of indirect cost recoveries for the current period. Indirect cost recoveries from all sources increased \$69,979 for the six-month period ending December 31, 2018 when compared to the same period in the previous year.
