Subject: Indirect Cost Allocation Report
For the Six-Month Period Ended June 30, 2015

The Indirect Cost Allocation Reports are available on the Research Foundation's web page at http://www.researchfoundation.odu.edu/reports/reports.html.

Attached you will find the Indirect Cost (IDC) Allocation report for the six-month period ended June 30, 2015. This report provides a combined reporting of the two University-approved IDC allocation methods currently in use: the Traditional Method and the Non-Traditional Method.

The Traditional Method covers the research activity of regular faculty members working within the capacity of their academic or administrative appointments. The Non-Traditional Method encompasses the remainder of the sponsored program activity of the University. Projects reported under this model are those of Self-Supporting Research Professional Positions (SSRP), University approved research centers and other affiliated entities for which the Research Foundation provides fiscal and administrative services.

Funds placed in the Intellectual Property Fund are used to pay legal and related costs for the filing and maintain patents as well as costs associated with licensing activities. Research Foundation reserves are used to pay non-recurring expenditures such as legal, consulting and capital items not considered part of on-going operations. The allocation to the Research Foundations reserves is considered temporary until such time as reserves are restored to prudent levels.

The effective IDC rate for the University activity in the Traditional and Non-traditional models excluding affiliates is 20.44% for the current period representing a .19% decrease from the same period in the prior fiscal year. Total Indirect Cost Recoveries from all sources decreased $144,084 when compared to the same period in the prior fiscal year. The amount allocated to the Research Foundation for operations during the six-month period amounts to 45% of total indirect cost recoveries.

Virginia Commercial Space Flight Authority's expenses are included in this report even though they have not generated any IDC. Effective January 1, 2015 they have incorporated their own rate structure to better fit their governmental accounting system. They will no longer be included in any Indirect Cost Allocation reports in the future.
