Subject: Indirect Cost Allocation Report
For the Six-Month Period Ended June 30, 2016

The Indirect Cost Allocation Reports are available on the Research Foundation's web page at <http://www.researchfoundation.odu.edu/reports/reports.html>.

Attached you will find the Indirect Cost (IDC) Allocation report for the six-month period ended June 30, 2016. This report provides a combined reporting of the two University-approved IDC allocation methods currently in use: the Traditional Method and the Non-Traditional Method.

The Traditional Method covers the research activity of regular faculty members working within the capacity of their academic or administrative appointments. The Non-Traditional Method encompasses the remainder of the sponsored program activity of the University. Projects reported under this model are those of Self-Supporting Research Professional Positions (SSRP), University approved research centers and other affiliated entities for which the Research Foundation provides fiscal and administrative services. This report no longer includes the activity of the Virginia Commercial Space Flight Authority. Administrative fees received from the Authority are used to reduce the amount of operating costs funded through the allocation models.

Funds placed in the Intellectual Property Fund are used to pay legal and related costs for the filing and maintain patents as well as costs associated with licensing activities. Research Foundation reserves are used to pay non-recurring expenditures such as legal, consulting and capital items not considered part of on-going operations. The allocation to the Research Foundations reserves is considered temporary until such time as reserves are restored to prudent levels.

The effective IDC rate for the University activity in the Traditional and Non-traditional models excluding affiliates is 20.07% for the current period a decrease of 0.37% from the same period in the previous fiscal year and 1.53% from the previous six-month reporting period. Funding for the Research Foundation operations is 44% of total indirect cost recoveries for the current reporting period and 41% for FY 2016. When compared to the previous fiscal year, the amount of Indirect Cost Recoveries required to fund Research Foundation operations increased \$26,000. Indirect cost recoveries from all sources increased \$600,276 in FY 2016 when compared to the previous fiscal year.

Should you have any questions concerning the enclosed report please do not hesitate to contact Beverly Uzel at 683-7215 (e-mail buzel@odu.edu) or me at 683-7210 (e-mail jfacenda@odu.edu).
