UNIVERSITY AUDIT DEPARTMENT OF OLD DOMINION UNIVERSITY
Audit of the Athletic Business Office

AUDIT SUMMARY

Department Head: Kenneth Brown, Chief of Staff, ODU Athletics Nicole Turner, Associate Athletic Director, Business and Finance **Responsible Vice President:** Camden Wood Selig, Director of Athletics	**Auditor:** Lauren Eady, Audit Manager **Chief Audit Executive:** Amanda Skaggs **Audit Report Date:** 6/4/2024

Background

The mission of the Old Dominion University Athletic Business Office is to be committed to providing excellent customer service in a respectful manner to student-athletes, the University community, and the public. ODU is a Division I school with 18 sports teams. The department's FY23 budget was approximately $41 million.

Scope and Objectives

The objectives of the audit were to determine whether adequate controls and procedures were in effect, activities complied with State and University requirements, and financial transactions were appropriate and monitored.

The audit scope covered expenses inclusive of compliance with purchase card expectations, special payments, budget management, time and leave entries and approvals, records management, contracts, compliance with the student fee cap, position descriptions and performance evaluations, emergency management, fixed assets, fund reserves and scholarships. The audit methodologies primarily included examining policies, procedures, reports, and other documents, performing transactional analysis on a comprehensive and sample basis and conducting interviews. The period reviewed was fiscal years 2020 through 2023.

Overall Risk Exposure[1]	Audit Conclusion: System of Internal Controls
☐ Low ☐ Moderate ☒ **High**	☐ Strong ☒ **Adequate** ☐ Need for Improvement

[1] Risk exposure is based on the inherent risk of the audited area and not the results or conclusions of the audit.

Issue	Planned Corrective Action
A Departmental Continuity Plan does not exist as required by University policy.	A Departmental Continuity Plan has been developed for the Athletic Department and conveyed to the Office of Emergency Management as of March 5, 2024. The division compliance coordinator will follow up to ensure OEM acceptance and communicate to the Athletic department personnel via email.
Timesheets and leave reports have not been consistently submitted by employees or approved timely by supervisors.	All supervisors will address the need to review and approve timesheets and leave reports for accuracy and make needed adjustments. Supervisors will provide reminders to staff regarding timesheet submissions and approvals via one-on-one meetings and through departmental staff meetings.
The Athletic Business Office needs to improve their records management practices to fully comply with the Virginia Public Records Act and University Policy.	The Athletic Department will have all units complete an RM-3 for records destruction, the Athletic Business Office will complete a records manual that will be approved by the University Records Manager, DRCs will continue to engage with records management and a file directory structure will be completed identifying records and non-records so they can be disposed of according to the retention schedule.

Status of Audit Issues Since April 2024

At the conclusion of each audit engagement, it is requested that management formally respond to all issues and concerns identified within the audit report with a corrective action plan(s) and expected completion date. In accordance with the Board of Visitors approved Charter of the University Audit Department, the Chief Audit Executive is responsible for following up with individual departments to determine the status of the open action items and reporting the results to the Audit, Compliance, and Human Resources Committee of the Board of Visitors.

During follow-ups, responsible departmental personnel are interviewed as needed to ascertain progress made on corrective actions outlined in management's responses to the original audit report. Completion is achieved when actions are taken to address all concerns and confirmed through examination of documentation and appropriate audit testing. The following scale was used to rate management's actions for the degree to which they address the audit point.

Status Rating	Criteria
Complete	Actions taken completely address the concerns cited in the audit point or were rectified to the extent reasonably possible.
In Progress	Corrective action is actively taking place. Some aspects may be complete; however, additional steps need to be taken to address all the main concerns of the original issue.
Planned	An action plan has been decided upon but has not yet commenced or only minimally begun.

Status Summary

There were 24 open action items in the April report and of these 4 are now complete, 18 items are in progress, and 2 are planned. The University Audit Department will actively track the open action items to completion.

The status of previously reported issues is presented by engagement title, executive area, and report date in the tables that follow.
