Information Kit for New Students

Master of Science in Cybersecurity

School of Cybersecurity

Old Dominion University

Welcome to the MS in Cybersecurity program!

1. Advising Hold

Please send me the following

- Your UIN, and
- Completed curriculum worksheet (see below).

The worksheet already includes the four core courses. Please add the expected semester you plan to take them from the course list in the Program Curriculum (see below). Moreover, please add five elective courses you plan to take (from the Restricted Elective Courses in the Program Curriculum), with CYSE 698 Master project. The elective courses may be changed in the future to fit your study plan.

See the link below about how to choose sections: https://online.odu.edu/academics/how-register-courses.

After I receive your UIN and completed curriculum worksheet, I will then lift your hold so that you can register the courses.

2. Student Curriculum Worksheet

You can find the MS Cybersecurity curriculum worksheet at
https://odu.edu/content/dam/odu/offices/ccser/docs/ms_worksheet.doc.

3. Program Curriculum and Sample Study Plans

You can find the program curriculum, and sample study plans at
https://odu.edu/content/dam/odu/offices/ccser/docs/admittedpackage.pdf.

4. Long-Term Class Schedule

You can find the long-term class schedule at
https://catalog.odu.edu/graduate/schoolofcybersecurity/#mscybersecuritytext.

5. Responsible Conduct of Research (RCR) Training

All graduate students need to complete RCR training prior to completion of 12 semester hours at ODU. Please go to ODU RCR Training Website: https://www.odu.edu/impact/responsible-conduct-of-training. You will see a number of modules; please choose the one for Engineers. Once you have completed the training, you will be able to print out a completion certificate on the "CITI RCR Course Completion Page". Finishing this final module will also notify ODU that you have satisfied the training requirement. Also, this is the pdf instructions for the RCR training: https://www.odu.edu/content/dam/odu/offices/research/docs/responsible-conduct-of-research-instructions.pdf

6. Orientation Video

There is a recorded video for the orientation for newly admitted students. The video link is here: https://odu.edu/content/dam/odu/col-dept/cybersecurity/imgs/cybersecurity-ms-orientation.mp4, which discusses the above two items as well as the degree requirements. You can watch the video if you need more information on the above items.
