FROM: Gregory E. DuBois
                Vice President for Administration and Finance

DATE: June 4, 2018

SUBJECT: Meeting of the Committee, June 14, 2018

The Board of Visitors Audit Committee will meet on Thursday, June 14, 2018, from 8:00 to 9:00 a.m., in Committee Room A (Room 2203) of the Broderick Dining Commons. The agenda for the meeting is noted below.

AGENDA

I.   Approval of Minutes – The Committee will consider a motion to approve the minutes of the Audit Committee meeting held on Thursday, April 26, 2018.

II.   Report from the Auditor of Public Accounts – LaToya Jordan, Director, and Holly Stout, Audit Manager.

III. <u>Report from the Internal Audit Director</u> – Amanda Skaggs, Internal Audit Director

 A. Projects in Progress

  1. General Accounting
  2. Procurement Services
  3. Card Center Information Technology
  4. Office of the University Registrar
  5. College of Health Sciences
  6. Department of Human Resources
  7. Transportation and Parking Services
  8. Special Projects/ Consulting Engagements

 B. Annual Risk Assessment

 C. FY2018 Audit Plan Status and Proposed FY2019 Audit Plan

 D. Completed Audit (Summary Enclosed)

  1. College of Education

 E. Open Audit Issues Update

IV. <u>Overview of the Office of Institutional Equity & Diversity</u> - ReNee Dunman, Assistant Vice President for Equity & Diversity.

OLD DOMINION UNIVERSITY INTERNAL AUDIT DEPARTMENT
Audit of the College of Education
FY 2017

AUDIT SUMMARY

Responsible Dean: Jane Bray, Dean of the College of Education **Responsible Vice President:** Austin Agho, Provost & Vice President for Academic Affairs	**Auditors:** Lauren Eady, Senior Auditor Glenn Wilson, IT Audit Manager **Audit Report Date:** 05/31/2018

Background

The University Auditor has completed a review of the College of Education including College owned, operated and/or contracted information technology. We performed this audit as part of the University's Board of Visitors approved annual audit plan for FY 2017, and conducted it in conformance with the International Standards for the Professional Practice of Internal Auditing as promulgated by the Institute of Internal Auditors.

The College of Education provides 13 bachelor's degree programs and 60 graduate programs and certificates. The College maintains a Children's Learning and Research Center that focuses on early care and education of children and serves as a training facility for students. The College also includes a Speech and Hearing Clinic that provides diagnostic and speech therapy services for children and adults. The total FY 2018 budget for the College is approximately $25,782,116, which includes general funds, grant funds and gift funds.

Although the College primarily relies on centrally managed information technology services, it owns and administers two systems classified as sensitive due to data confidentiality, integrity and availability requirements. CORS video is a multi-room, distributed network based digital system for observing, recording and playback of student-patient sessions within the Speech and Hearing Clinic and Department of Counseling & Human Services. Childcare Manager is a client-database server application that supports business and academic administrative functions of the Children's Learning and Research Center.

Scope and Objectives

The objectives of the audit were to:

1. Determine whether information technology systems owned, operated or contracted for by the College of Education are (a) appropriately controlled to ensure that data integrity is maintained, availability meets business requirements, access is authorized, appropriate, and secured; (b) managed in accordance with applicable standards and regulatory compliance with regard to the nature and sensitivity of the underlying information;

2. Provide management with an independent assessment of the design of internal controls and operations of the College, and determine whether (a) adequate internal controls and operating procedures exist; (b) the College of Education complies with State and University policies, procedures and guidelines; (c) the College is operating efficiently and effectively; and (d) financial transactions are appropriate and monitored.

The audit included reviewing fixed assets, budget monitoring, expenses, faculty workload, leave management and revenue received. The audit also included a detailed review of operations of the Children's Learning and Research Center and the Speech and Hearing Clinic.

The period reviewed was fiscal years 2015 through to date 2018.

The information technology portion of the audit focused on identification and testing of primary cybersecurity controls in effect over sensitive systems meeting the objective criteria of those owned, operated or contracted for by the College.

Overall Risk Exposure[1]			Audit Conclusion: System of Internal Controls		
☐ Low	☐ Moderate	☒ **High**	☐ Strong	☒ **Adequate**	☐ Need for Improvement

[1] Risk exposure is based on the inherent risk of the audited area and not the results or conclusions of the audit.

Summary of Audit Findings by Area (Type)

College of Education (Business and Finance)

- There were issues with missing bank statements, missing reconciliations and unsigned reconciliations of the purchase cards (PCARD) used by College of Education employees.

- The College of Education's process for ensuring control over fixed assets is not sufficient and does not meet all of the required procedures for proper fixed asset control as set forth in University Policy (#3400) and Office of Finance Procedure (#3-800).

College of Education Special Purpose Entities* (Business and Finance)

- The rates charged by several College of Education special purpose entities do not match the rates approved and published in the University's Schedule of Tuition, Fees, and Service Charges.

- Documentation is not always maintained to explain why individuals in the waiting pool have been passed over for positions at the Children's Learning and Research Center (CLRC).

- The Children's Learning and Research Center does not have policies or procedures for enforcing payment of late fees and collecting on overdue accounts.

College of Education Special Purpose Entities* (Information Technology)

- The Childcare Manager system is configured to permit all access through a common account with full administrative rights to the application.

- The frequency of CORS Video system scans and updates for significant vulnerabilities is not consistent with the University's information security program and internal standards.

- Sensitive files are extracted from the CORS Video system to removable media for offsite use without electronic or established physical protections.

- There are workstations configured to access the CORS Video system that are assigned to the University's public network address space.

- Business continuity planning and data backup provision for the CORS Video system do not ensure achievement of recovery objectives established by the system and data owner.

- The system risk assessments for the Childcare Manager and CORS Video systems need revisions for accuracy and completeness.

- A process for managing record retention has not been established for the CORS Video and Childcare Manager systems.

We thank the College of Education, Child Development Learning and Research Center and the Speech and Hearing Clinic for their extensive cooperation and assistance throughout the entire audit process. In our opinion, the proposed action plans adequately address the risks and concerns raised.

* Special purposes entities include the Children's Learning and Research Center, the Speech and Hearing Clinic, the Department of Counseling and Human Services, and the Wellness Institute in the Human Movement Sciences Department.

Activity and Status of Audit Issues since November 2017

Office of the University Auditor
June 4, 2018

Activity and Status of Audit Issues Since November 2017

The Office of the University Auditor follows up with management as to the status of previously recommended corrective actions related to issues identified in previous audit reports. In accordance with the Statement of Policies of the Office of the University Auditor, which was approved by the Board of Visitors, the Internal Audit Director is responsible for ensuring that individual departments have taken appropriate actions to correct internal control weaknesses, which were reported at the conclusion of the internal audit.

For purposes of the follow-up, interviews with appropriate departmental personnel were conducted to obtain updates on the corrective actions outlined by management responses to the original audit report. In order to confirm corrective action, examination of documentation and appropriate audit testing was also conducted. The following scale was used to rate management's actions for the degree to which they address the audit point and affect correction.

Status Rating	Criteria
Complete	Actions taken completely address the concerns cited in the audit point and recommendations made or were rectified to the extent reasonably possible.
In Progress	Corrective action is actively taking place; some aspects may be complete; however additional steps need to be completed to rectify all of the main concerns of the original issue.
Planned	An action plan has been decided upon, but has not yet commenced or only minimally begun.

Summary of Activity

There were twenty-five open audit issues in the November 2017 status report, of which nine are now complete. Since 11/17/2017, there were forty new issues reported, of which six are now complete. The Office of the University Auditor is actively tracking the fifty remaining issues. The status of new and previously reported issues are presented by engagement title, executive area and report date in the tables that follow.
