## Audit of Payroll Benefits

### AUDIT SUMMARY

**Department Heads:** Gloria Boone, Payroll Manager, Office of Finance  
Mary Deneen, Assistant VP for Finance/University Controller

**Auditor:** Lauren Eady, Senior Auditor  
**Chief Audit Executive:** Amanda Skaggs

**Responsible Vice President:** Chad A. Reed, Vice President for  
Administration & Finance

**Audit Report Date:** 5/20/2022

### Background

The mission of the Payroll Office is to ensure that all employees of the University are paid timely and accurately while maintaining compliance with federal, state, and University regulations and policies. There are four employees that support the Payroll Benefits processes directly. Payroll Benefits serves the University by ensuring employees are enrolled in their chosen benefit programs and that information and proper payments are provided to benefit vendors both on and off campus. Examples of current benefit programs include health care, life insurance, parking and retirement contributions. For the March 31, 2022 payroll date, ODU transmitted \$5.9 million dollars to benefit vendors including those outside the University, on campus vendors, the ODU Research Foundation and the ODU Intercollegiate Foundation. This includes both employee and employer deduction amounts for all full time employees paid semi-monthly.

### Scope and Objectives

The general objective of the audit is to provide management with an independent assessment of the design of internal controls and operations of the payroll benefits processes and to determine whether:

1. Internal controls and operating procedures exist;
2. The department is in compliance with applicable policies, procedures and guidelines; and
3. The department is operating efficiently and effectively.

Key processes reviewed included entering deductions, reconciling amounts paid to vendors, working with on campus vendors, complying with Commonwealth of Virginia requirements, and access and security of benefit data transmissions. The audit methodologies primarily included examining internal procedures, reports, and other documents, performing transactional analysis on a sample basis and conducting interviews. The period reviewed was fiscal years 2021 and 2022 to date.

### Overall Risk Exposure<sup>1</sup>

- Low  
 Moderate  
 **High**

### Audit Conclusion: System of Internal Controls

- Strong**  
 Adequate  
 Need for Improvement

<sup>1</sup> Risk exposure is based on the inherent risk of the audited area and not the results or conclusions of the audit.

**Audit Issues: None**

## Closeout Procedures Summary for the Confucius Institute

### **Background and Executive Summary**

Confucius Institute Headquarters/Hanban is affiliated with the Chinese Ministry of Education. Its mission is to provide Chinese language and cultural teaching resources and services worldwide. Beginning in 2015, Hanban requested regular audits of ODU's Confucius Institute (CI) and the University responded and agreed to audit the Confucius Institute. The previous Agreed Upon Procedures engagements performed by the University Audit Department included calendar years 2015 through 2017.

ODU's Confucius Institute effectively closed in June of 2020. This engagement's purpose was to determine if all close-out procedures were performed. While there was a significant delay in performing all of the required procedures, the audit team was able to obtain the documentation necessary to affirm that all close-out procedures have occurred as of May 2022.

### **Scope and Objectives**

The main purpose of this engagement was to conduct specific agreed upon procedures related to ODU's Confucius Institute as outlined in the Agreed Upon Procedures document. Based on Hanban's letter to the University dated March 16, 2020 that specified the required wrapping up procedures, a final engagement of the Confucius Institute was approved by the Board of Visitors for inclusion in the audit plan. A key focus of this engagement was to confirm the amount of funds due from the University to Hanban.

### **Overall Conclusion**

We were able to obtain documentation necessary to affirm that all wrapping up procedures of the ODU Confucius Institute as detailed in the March 16, 2020 letter from Hanban have occurred as of May 2022. In addition, a final email was sent from Academic Affairs on May 19, 2022 to Weigui Sheng, Hanban representative noting that ODU has satisfactorily addressed each of the components of the wrapping up procedures.

| Background   |
|--|
| <p>Banner Workflow is an on-premises enterprise solution from Ellucian supporting development of automated business processes. Old Dominion University has developed and implemented various workflows that achieve specific objectives through logically triggered events, interactive checklists, email notifications and worklists. At the start of the audit 15 active workflows were identified and assessed for business impact. Two were selected for detailed testing: Human Resources (HR) Separation and Fixed Asset Transfer workflows.</p> <p>The HR Separation workflow ensures that when an employee separates from university employment, all necessary actions are completed by supervisors and various departments. Activities include but are not limited to disabling computing privileges, removing door access, recovering keys, small purchase cards, certain expenses, and processing benefits.</p> <p>The Fixed Asset Transfer workflow is utilized by department level Fixed Asset Coordinators to transfer assets between budgets and/or physical locations. Responsibility for tracking and maintaining assets falls to the respective Budget Unit Directors who have approval roles in the workflow. Asset transfer requests that receive all approvals required by the workflow’s design are automatically forwarded to the Office of Finance’s Fixed Asset Accountant role to record the transfer in Banner.</p> |

| Scope and Objectives  |
|---|
| <p>The primary objective was to review in detail workflows with significant business impact for reliability of input/outputs, achievement of expected objectives and access controls in effect over Banner Workflow users. The scope included Banner workflows which were active as of June 2021.</p> |

University Audit Department

## Activity and Status of Audit Issues Since April 2022

The University Audit Department follows up with management as to the status of previously recommended corrective actions related to issues identified in previous audit reports. In accordance with the Statement of Policies of the University Audit Department, which was approved by the Board of Visitors, the Chief Audit Executive is responsible for ensuring that individual departments have taken appropriate actions to correct internal control weaknesses and matters of compliance, which were reported at the conclusion of the audit engagements.

For purposes of the follow-up, interviews with appropriate departmental personnel were conducted to obtain updates on the corrective actions outlined by management responses to the original audit report. In order to confirm corrective action, examination of documentation and appropriate audit testing was also conducted. The following scale was used to rate management's actions for the degree to which they address the audit point.

| Status Rating | Criteria   |
|---------------|--|
| Complete      | Actions taken completely address the concerns cited in the audit point or were rectified to the extent reasonably possible.  |
| In Progress   | Corrective action is actively taking place. Some aspects may be complete; however, additional steps need to be taken to address all the main concerns of the original issue. |
| Planned       | An action plan has been decided upon but has not yet commenced or only minimally begun.  |

### Summary of Activity

There were 45 open action items in the April 2022 report, of which 5 are now complete. Since the last report, 17 new action items have been added of which 1 is complete. The University Audit Department is actively tracking the remaining 56 open action items.

The status of previously reported issues is presented by engagement title, executive area, and report date in the tables that follow.
