Enrollment by Racial/Ethnic Category

B2 Enrollment by Racial/Ethnic Category. Provide numbers of undergraduate students for each of the following categories as of the institution's official Fall reporting date or as of October 15, 2018. Include international students only in the category "Nonresident aliens." Complete the "Total Undergraduates" column only if you cannot provide data for the first two columns. Report as your institution reports to IPEDS: persons who are Hispanic/Latino should be reported only on the Hispanic/Latino line, not under any race, and persons who are non-Hispanic/Latino multi-racial should be reported only under "Two or more races."

Graduation Rates

The items in this section correspond to data elements collected by the IPEDS Web-based Data Collection System's Graduation Rate Survey (GRS). For complete instructions and definitions of data elements, see the IPEDS GRS Forms and Instructions for the 2018-19 Survey.

In the following section for bachelor's or equivalent programs, please disaggregate the Fall 2011 and Fall 2012 cohorts (formerly CDS B4-B11) into four groups:

- Students who received a Federal Pell Grant*
- Recipients of a subsidized Stafford Loan who did not receive a Pell Grant
- Students who did not receive either a Pell Grant or a subsidized Stafford Loan
- Total (all students, regardless of Pell Grant or subsidized loan status)

*Students who received both a Federal Pell Grant and a subsidized Stafford Loan should be reported in the "Recipients of a Federal Pell Grant" column.

For each graduation rate grid below, the numbers in the first three columns for Questions A-G should sum to the cohort total in the fourth column (formerly CDS B4-B11).

For Bachelor's or Equivalent Programs

Please provide data for the Fall 2012 cohort if available. If Fall 2012 cohort data are not available, provide data for the Fall 2011 cohort.

Fall 2011 Cohort

Retention Rates

Report for the cohort of all full-time, first-time bachelor's (or equivalent) degree-seeking undergraduate students who entered in Fall 2017 (or the preceding summer term). The initial cohort may be adjusted for students who departed for the following reasons: deceased, permanently disabled, service in the armed forces, foreign aid service of the federal government or official church missions. No other adjustments to the initial cohort should be made.

For the cohort of all full-time bachelor's (or equivalent) degree-seeking undergraduate students who entered your institution as freshman in Fall 2017 (or the preceding summer term), what percentage was enrolled at your institution as of the date your institution calculates its official enrollment in Fall 2018?

78.7

%

Applications

C1 First-time, first-year (freshman) students:

Provide the number of degree-seeking, first-time, first-year students who applied, were admitted, and enrolled (full- or part-time) in Fall 2018. Include early decision, early action, and students who began studies during summer in this cohort. Applicants should include only those students who fulfilled the requirements for consideration for admission (i.e., who completed actionable applications) and who have been notified of one of the following actions: admission, nonadmission, placement on waiting list, or application withdrawn (by applicant or institution). Admitted applicants should include wait-listed students who were subsequently offered admission.

*Nonstandard field added by The Princeton Review

**Please fill in this field, only if you cannot provide the men/women breakdown.

Total first-time, first-year (freshman) men who applied	5,902
Total first-time, first-year (freshman) women who applied	7,433
*Total first-time, first-year (freshman) gender not specified who applied	
**Total first-time, first-year (freshman) who applied	13,335
Total first-time, first-year (freshman) men who were admitted	5,028
Total first-time, first-year (freshman) women who were admitted	6,572
*Total first-time, first-year (freshman) gender not specifed who were admitted	
**Total first-time, first-year (freshman) who were admitted	11,600
Total full-time, first-time, first-year (freshman) men who enrolled	1,473
Total part-time, first-time, first-year (freshman) men who enrolled	11
Total full-time, first-time, first-year (freshman) women who enrolled	1,677
Total part-time, first-time , first-year (freshman) women who enrolled	15
*Total full-time, first-time , first-year (freshman) gender not specified who enrolled

04/30

Common Data Set G: Annual Expenses

Undergraduate full-time tuition, required fees, room and board

G1 List the typical tuition, required fees, and room and board for a full-time undergraduate student for the FULL 2019-2020 academic year (30 semester or 45 quarter hours for institutions that derive annual tuition by multiplying credit hour cost by number of credits). A full academic year refers to the period of time generally extending from September to June; usually equated to two semesters or trimesters, three quarters, or the period covered by a four-one-four plan. Room and board is defined as double occupancy and 19 meals per week or the maximum meal plan. Required fees include only charges that all full-time students must pay that are NOT included in tuition (e.g., registration, health, or activity fees.) Do NOT include optional fees (e.g., parking, laboratory use).

Common Data Set I: Instructional Faculty And Class Size

Instructional Faculty

Please report number of instructional faculty members in each category for Fall 2018. Include faculty who are on your institution's payroll on the census date your institution uses for IPEDS/AAUP.

The following definition of full-time instructional faculty is used by the American Association of University Professors (AAUP) in its annual Faculty Compensation Survey (the part time definitions are not used by AAUP). Instructional Faculty is defined as those members of the instructional-research staff whose major regular assignment is instruction, including those with released time for research. Use the chart below to determine inclusions and exclusions:

	Full-time	Part-time
(a) instructional faculty in preclinical and clinical medicine, faculty who are not paid (e.g., those who donate their services or are in the military), or research-only faculty, post-doctoral fellows, or predoctoral fellows	Exclude	Include only if they teach one or more non-clinical credit courses
(b) administrative officers with titles such as dean of students, librarian, registrar, coach, and the like, even though they may devote part of their time to classroom instruction and may have faculty status	Exclude	Include only if they teach one or more non-clinical credit courses
(c) other administrators/staff who teach one or more non- clinical credit courses even though they do not have faculty status	Exclude	Include
(d) undergraduate or graduate students who assist in the		
instruction of courses, but have titles such as teaching assistant, teaching fellow, and the like	Exclude	Exclude
(e) faculty on sabbatical or leave with pay	Include	Exclude
(f) faculty on leave without pay	Exclude	Exclude
(g) replacement faculty for faculty on sabbatical leave or leave with pay	Exclude	Include

Full-time instructional faculty: faculty employed on a full-time basis for instruction (including those with released time for research) Part-time instructional faculty: Adjuncts and other instructors being paid solely for part-time classroom instruction. Also includes full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees who are not considered full-time instructional faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.

Minority faculty: includes faculty who designate themselves as black, non-Hispanic; American Indian or Alaskan native; Asian, Native Hawaiian or other Pacific Islander; or Hispanic.

Doctorate: includes such degrees as Doctor of Philosophy, Doctor of Education, Doctor of Juridical Science, and Doctor of Public Health in any field such as arts, sciences, education, engineering, business, and public administration. Also includes terminal degrees formerly designated as "first professional," including dentistry (DDS or DMD), medicine (MD), optometry (OD), osteopathic medicine (DO), pharmacy (DPharm or BPharm), podiatric medicine (DPM), veterinary medicine (DVM), chiropractic (DC or DCM), or law (JD)

aw (JD). 「erminal degree: the highest degre	ee in a field: example, M. Arch (a	architecture) and MFA (maste	r of fine arts).

Common Data Set I: Instructional Faculty And Class Size

Undergraduate Class Size

In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2018 term.

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

Class Subsections: A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of course catalog cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of class sections and class subsections offered in Fall 2018. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the "100+" column in the class section column and 40 times under the "20-29" column of the class subsections table.

Number of Class Sections with Undergraduates Enrolled.

Undergraduate Class Size (provide numbers)

	2-9	10-19	20-29	30-39	40-49	50-9	99	100+	Total
Class Sections									
303	692			656			621		
202	190			73			2,737		
Class Sub-Sections									
37	122			140			43		
18	6			3			369		

PLEASE NOTE THE FOLLOWING:

- 1) Saving the form does not Lock it. You may return at any time to make changes or update your data.
- 2) Once saved, your data is published directly to our website, usually within 48 hours. No final "Submit" button or procedure is necessary.

I certify that the data contained in this form are accurate, correct, and up-to-date.

Common Data Set J: Degrees Conferred

Degrees conferred between July 1, 2017 and June 30, 2018

For each of the following discipline areas, provide the percentage of diplomas/certificates, associate, and Bachelor's degrees awarded. To determine the percentage, use majors, not headcount (e.g. students with one degree but a double major will be represented twice). Calculate the percentage from your institution's IPEDS Completions by using the sum of 1st and 2nd majors for each CIP code as the numerator and the sum of the Grand Total by 1st Majors and the Grand Total by 2nd major as the denominator. If you prefer, you can compute the percentages using 1st majors only.

Do you participate in the Federal Work-Study Program (FWS)?:	Yes	~]
Is institutional employment, other than FWS, available?	Yes	- 1

Review Data Set Form E: Financial Aid

Merit aid for the purposes of the following questions is defined as grants or scholarships awarded based on academic achievements (GPA, academic interests, standardized test scores, field of study). Aid granted for athletic or artistic reasons should not be counted. The full sum of merit aid should be counted, even if it some or all of the award was used to meet demonstrated need.

Do not include partial test scores (e.g. mathematics scores but not critical reading for a category of students) or combine other standardized test results (such as TOEFL) in this item. Do not convert SAT scores to ACT scores and vice versa. Do convert Old SAT scores (2016) to New SAT scores using the College Board's concordance tools and tables.

How much merit aid did your school award last year in total to its degree-seeking ugrads?	\$ 12,175,342
What percentage of the merit aid your school awards is	
contingent upon standardized test scores (in part or wholly)?	100
What is the average award (per student) contingent upon standardized test scores (in part or wholly)?	\$ 3,657

Green Campus Questions

The Princeton Review is pleased to continue its partnership with the Association for the Advancement of Sustainability in Higher Education (AASHE) to streamline the reporting process for institutions that choose to participate in various higher education sustainability assessments. The intent of this initiative is to reduce and streamline the amount of time campus staff spend tracking sustainability data and completing related surveys. The Princeton Review will accept data submitted via the STARS Reporting Tool or data submitted

directly through our own Review Data Set Form F: Student Life below.

**Note that data submitted below will not be shared with any other organization and will be used exclusively by The Princeton Review.

The STARS Reporting Tool is available to users now and located here:

https://stars.aashe.org/pages/register/register-stars.html

The form below is a copy of the STARS 1.2 form. You can refer to the manual here for guidance on timelines and definitions.

2018-19 DATA IS DUE TO THE PRINCETON REVIEW VIA EITHER TOOL BY MARCH 1ST, 2019

How will your institution submit the green campus section of the survey?

- Please check here if your institution will submit data to The Princeton Review via the STARS Reporting Tool located on AASHE's website.
- Please check here if your institution will submit data to The Princeton Review via the form below.

CURRICULUM

ER-9: Sustainability Learning Outcomes

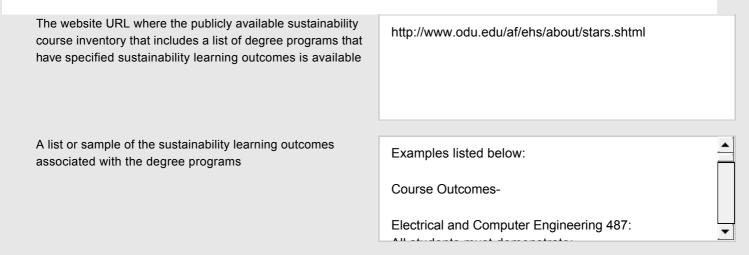

Criteria

Institution's students graduate from programs that include sustainability as a required learning outcome or include multiple sustainability learning outcomes.

For this credit, learning outcomes at the course level count if the course is required to earn the degree. This credit includes graduate as well as undergraduate programs. For this credit, "programs" include majors, minors, concentrations, certificates, and other academic designations. Programs that include co-curricular aspects may count as long as there is an academic component of the program.

The website URL where the inventory is posted or a copy of the inventory may be provided instead of this list if the inventory includes the relevant information.

ER-10: Undergraduate Program in Sustainability

Criteria

Institution offers at least one sustainability-focused undergraduate major, degree program, or equivalent.

The degree program does not have to include sustainability in its name to count for this credit. Environmental Studies programs, for example, count as long as the program covers the social, economic, and environmental dimensions of sustainability. A program that focuses exclusively on environmental or social issues, however, would not be sufficient to earn this credit.

Concentrations within a major (e.g. a concentration on sustainable business within the business major) do not count for this credit.

BUILDINGS

OP-1: Building Operations and Maintenance

Criteria

Institution owns and operates buildings that are:

1) Certified under the LEED® for Existing Buildings: Operations & Maintenance (O&M) Green Building Rating System,

and/or

2) Operated and maintained in accordance with sustainable operations and maintenance guidelines and policies that cover the following:

Impacts on the surrounding site
Energy consumption
Usage of environmentally preferable materials
Indoor environmental quality
Water consumption

Total building space that meets "Eligible Buildings Criteria"		
Please use Gross Floor Area.		

Gross Floor Area

Consistent with the American Society of Heating, Refrigerating and Air- Conditioning Engineers (ASHRAE) and the U.S. Green Building Council (USGBC), we define gross floor area as: "Sum of the floor areas of the spaces within the building, including basements, mezzanine and intermediate-floored tiers, and penthouses with headroom height of 7.5 ft (2.2 meters) or greater. It is measured from the exterior faces of exterior walls or from the centerline of walls separating buildings, or (for LEED CI certifying spaces) from the centerline of walls separating spaces. Excludes non-enclosed (or non-enclosable) roofed-over areas such as exterior covered walkways, porches, terraces or steps, roof overhangs, and similar features. Excludes air shafts, pipe trenches, and chimneys.

Building space that is maintained in accordance with sustainable building operations and maintenance guidelines or policies but is NOT certified under LEED for Existing Buildings: O&M	Square Feet
Building space that is LEED for Existing Buildings: O&M Certified	Square Feet

Criteria

The names of all buildings designed and constructed in accordance with green building guidelines and policies but not LEED certified

OP-3: Indoor Air Quality

Criteria

Institution has adopted an indoor air quality management policy, plan, and/or practices that include regular auditing or monitoring and a mechanism for occupants to register complaints. Policies and plans adopted by entities of which the institution is part (e.g. state government or the university system) may count for this credit as long as the policies apply to and are followed by the institution.

CLIMATE

OP-4: Greenhouse Gas Emissions Inventory

Criteria

Part 1

Institution has conducted a GHG emissions inventory covering its Scope 1 and Scope 2 emissions. The GHG emissions inventory is publicly available, either through the American College & University Presidents' Climate Commitment reporting site, the institution's website, or another public website.

Part 2

Institution has conducted a GHG emissions inventory covering Scope 3 emissions. The GHG emissions inventory is publicly available, either through the American College & University Presidents' Climate Commitment reporting site, the institution's website, or another public website.

 Combustion of fuels to produce electricity, st fixed location such as boilers, burners, heate 		
• Combustion fuels by institution-owned cars,	tractors, buses, and other transportation	

Sa

devices

Scope 2 Emissions

Scope 2 emissions are indirect GHG emissions that are a consequence of activities that take place within the organizational boundaries of the institution, but that occur at sources owned or controlled by another entity. Scope 2 emission sources include:

- Purchased electricity
- Purchased heating
- Purchased cooling
- Purchased steam

Does the inventory include another Scope 3 emissions	Select	- 1
source not covered above?		_

Scope 3 emissions are all indirect emissions not covered in Scope 2. Scope 3 emission sources include:

- Air travel
- Commuting
- Extraction, production, and transportation of purchased materials and fuels, including food
- **Outsourced activities**
- Solid waste disposal

Does the inventory include a second Scope 3 emissions source not covered above?	Select
Does the inventory include a third Scope 3 emissions source not covered above?	Select
Does the inventory include a fourth Scope 3 emissions source not covered above?	Select

ENERGY

OP-8: Clean and Renewable Energy

Criteria

Institution supports the development and use of clean and renewable energy sources using any one or combination of the following options.

Option 1: Generating electricity from clean and renewable energy sources on campus and retaining or retiring the rights to the environmental attributes of such electricity. (In other words, if the institution has sold Renewable Energy Credits for the clean and renewable energy it generated, it may not claim such energy here). The on-site renewable energy generating devices may be owned and/or maintained by another party as long as the institution has contractual rights to the associated environmental attributes.

Option 2: Using renewable sources for non-electric, on-site energy generation, such as biomass for heating.

Option 3: Catalyzing the development of off-site clean and renewable energy sources (e.g. an off-campus wind farm that was designed and built to supply electricity to the institution) and retaining the environmental attributes of that energy.

Option 4: Purchasing the environmental attributes of electricity in the form of Renewable Energy Certificates (RECs) or other similar renewable energy products that are either Green-e Energy certified or meet Green-e Energy's technical requirements and are verified as such by a third party, or purchasing renewable electricity through the institution's electric utility through a certified green power purchasing option.

Option 5: Using cogeneration technologies to generate electricity more efficiently. Note: generating electricity using cogeneration technology and a renewable fuel, such as biomass, is considered Option 1 and should not be counted twice.

Since this credit is intended to recognize institutions that are generating new sources of clean and renewable energy, neither the electric grid mix for the region in which the institution is located nor the grid mix reported by the electric utility that serves the institution count for this credit.

Technologies that reduce the amount of energy used but do not generate renewable energy do not count for this credit. For example, daylighting, passive solar design, and ground-

ource neat pumps are not counted in this credit. by OP Credit 5: Greenhouse Gas Emissions Redu Consumption.	
Fransportation fuels, which are covered by OP Cr his credit.	edit 14: Campus Fleet, are not included in

DINING SERVICES

OP-6: Food and Beverage Purchasing

Criteria

This credit includes food and beverage purchases for on-campus dining services operated by the institution or the institution's primary on-site contractor. Institution purchases food and beverages that meet at least one of the following criteria:

Grown and processed within 250 miles of the institution

Third-party certified (USDA Certified Organic, Marine Stewardship Council Blue Ecolabel, Food Alliance, Fair Trade, Certified Humane Raised and Handled)

Food and beverage purchases that meet multiple criteria listed above should not be double-counted.

This credit includes food and beverage purchases for on-campus dining operations and catering services operated by the institution or the institution's primary dining services contractor (e.g. Aramark, Bon Appétit Management Company, Chartwells, Sodexo). On-site franchises, convenience stores, vending machines, or concessions are excluded from this credit unless they are operated by the institution or the institution's primary on-site contractor.

INVESTMENT

PAE-16: Committee on Investor Responsibility

Criteria

Institution has a formally established and active CIR or similar body that makes recommendations to the Board of Trustees on socially and environmentally responsible investment opportunities across asset classes, including proxy voting. The body has multistakeholder representation, which means its membership includes faculty, staff, and students and may include alumni, trustees, and/or other parties.

Institutions for which investments are handled by the university system and/or a separate foundation of the institution should report on the investment policies and activities of those

entities. A general committee that oversees the institution's investments does not count for this credit unless social and environmental responsibility is an explicit part of its mission and/or agenda. Does the institution have a committee on investor Select... responsibility or similar body that meets the criteria for this credit? The charter or mission statement of the CIR or other body, which reflects social and environmental concerns, or a brief description of how the CIR is tasked to address social and environmental concerns Members of the CIR, including affiliations Recent examples (within the past 3 years) of CIR actions The website URL where information about the committee is available Princeton Review's Supplemental Data Fields The below data fields are not contained within the CSDC. These fields are for editorial and not rating purposes. Please list your school's top three undertakings that All new contruction and major renovations are designed represent your environmental commitment. to LEED Silver standards at a minimum. We completed two projects this year, one new construction and one renovation. We recycled over 1.7 million pounds of materials last year that would have otherwise gone to landfill . Established the ODU Climate Change and Sea Level

> Ride Initiative (CCSLRI) which is an effort by researcher and local policy makers to identify the multi-faceted impact climate change and rising sea levels will have on

our region.

Does your school's career center provide active and substantive guidance on green jobs?	No 🔻

Review Data Set Form G: Campus Safety

Information provided should be for the latest 12 month period for which data is available 1. What percentage of your student housing sleeping rooms % 53 are protected by an automatic fire sprinkler system with a fire sprinkler head located in the individual sleeping rooms? NOTE: A student housing sleeping room is defined as the actual room in which the occupants live and sleep. Student housing can include typical residence halls, graduate student housing, married student housing or any housing that is under the control or affiliated with the school, such as private, third-party residence halls built under contract with the school. This does not include Greek housing. 2. What percentage of your student housing sleeping rooms % 84 are equipped with a smoke detector that is connected to a supervised fire alarm system? NOTE: When the smoke alarm/detector is activated it must transmit a signal to a supervised location, initiating an immediate response by a staff member to investigate. This alarm does not necessarily activate the building fire alarm system. 3. How many malicious fire alarms occur in student 0 housing per year? NOTE: A malicious fire alarm would be defined as one where a building's fire alarm system is activated even though it is known that there is no emergency condition. For example, someone blows smoke into a smoke detector or a manual pull station is activated. 4. How many unwanted fire alarms occur in student 191 housing per year? NOTE: An unwanted fire alarm would be defined as one where a building's fire alarm system is activated by nonemergency conditions, yet the fire alarm system responds appropriately to stimuli that it interprets as a fire condition. For example, a smoke alarm that is located too close to a shower and is activated by steam, or is adjacent to a cooking area. 5. What percentage of student housing building fire alarm % 99 systems, if activated, result in a signal being transmitted to a monitored location, and security investigates before notifying the fire department? 6. What percentage of student housing building fire alarm % 0 systems, if activated, result in a signal being transmitted immediately to the fire department so they can begin responding? 7. How many students are trained in fire safety in campus 152 provided housing each semester? 8. What percentage of RAs and housing directors receive 100 fire safety training? NOTE: For purposes of this question, housing staff will

include only personnel such as resident assistants and/or

resident directors who live in student housing.

9. How many contact hours of fire safety training is provided to students not living in student housing (i.e., off-campus,		0	
NOTE: specia actual handin newsp fire ext	ing Greek)? This will not include fire safety training provided to alties such as laboratory assistants. This must be training with contact time and not include simply ag out brochures, fire safety articles in the student aper, etc. An example of contact hours would include tinguisher training that is provided to 30 students in our which would equal 30 contact hours.		
	w many regularly scheduled, supervised exit drills ld per year in student housing?	4	
44 11			
	w many fires did your school experience last year in nt housing?	1	
NOTE: conter	: A fire must result in damage to the structure or its.		
	nat is the dollar loss related to fire that has occurred ir campus in residential housing?	999	
NOTE:	Dollar loss is direct property damage to the structure ontents and does not include costs such as ative housing, staff response, etc		
	w many students have been injured by fires in it housing?	2	
14. Ho housir	w many students have been killed by fires in student ng?	0	
		n student housing sleeping rooms? approved/supplied appliances or in school-approved areas, such	
V	candles		
哮	halogen lamps		
V	smoking		
<u>~</u>	cooking		
<u>~</u>	live christmas trees		
<u>~</u>	ceiling tapestries		
V	Other (please specify)		
If you s	selected Other please specify:	Extension cords	
furnitu	nes your school require fire-resistance ratings on re (including, but not limited to, beds, mattresses, and chairs) in student housing sleeping rooms?	Yes ▼	
	nes your school require that furnishings brought in by udents have fire-resistance ratings?	No 🔻	

18. How often are fire safety rules-compliance inspections conducted in your school's student housing?

NOTE: This refers to regularly scheduled, in-room inspections conducted by an inspector or trained individual who is knowledgeable about fire safety issues. It does not refer to a security officer making regular rounds. ALL of the rooms must be inspected during these inspections and checked for hazards.

5 times/year
